would have been to concentrate the force, su- of million bales. perior in numbers to the enemy, with sufficient even if it took us to Galveston. This was suggested as a possible result of the campaign, but t was not embraced in the original plan, and was specially precluded by orders received from clares that the enemy was defeated in every encounter, except in that at Sabine Cross Roads, exandria. on the 8th of April. This defeat is attributed to the loose order of march and the improper position of the cavalry trains.

The War in South America.

NEW YORK, Nov. 4 - Later intelligence reca is contained in dispatches and newspaper files from Buenos Avres, Oct. 12th and Rio Janeiro to 24th Sept. There had been no engagement between the opposing armies since the battle of Yatalry, but the siege of Uraguanna still contipued. On the fifth day about seven or eight hundred Paraguayans shut themselves up in this town, which was immediately beseiged by an a.my of two thousand Brazilians, Argentines and Uraguayans. Up to last accounts the invest-LL OUR STOVES ARE OF THE LATEST AND ment had continued thirty-seven days, the little army within having worked night and day to strengthen its position, and its commander peremptorily refusing to surrender.

> The Emperer of Brazil and the President of the Argentine Republic had gone to Uraguay to assist in directing the affairs, and to hold conterence with General Flores, President of Uraguny, who was superintending operations on behalt of the allies. The latter appeared to be suffering much more from lack of supplies than the beseiged. Many of their troops had died of ossession of the town. All the prisoners that are captured from the allies are incorporated into their own armies, and it is said these recruits lought very well against their own flag. On the Parma River tha Paraguayans had gained some advantages, having considerably damaged the Brazilian fleet, and advanced their own posi- zens, has all been restored. tion and works on its western wing down the river. It is believed that Paraguay after manning all her garrisons and placing her boundaries in a good state of defence can put 100,000 men in the field outside her own territory for offensive operations.

always in less time than any other preparation. In the OFFICE-South side Public Square, Covington, Indiana AND COPAIBA, there is no need of confinement or change THE Company holds by lease, and in fee, abou twenty thousand acres of the most select coat lands in Western Iudians, bordering both sides of the Wabash river. Maps of these lands may be seen at the office of the Company, in Covington, Ind., at the office of Wm. Dale, No. 25 Park Place, N. Y. City, at the office of

Hon. J. R. Coffroth, Huntington, Indiana, and at the office of Roach & McDonald, Indianapolis.

A reference to the report of the Hon. David Dale Owen, late State Geologist, will show that these lands are situate in the midst of the finest coal fields of the State, abounding also in salt, iron and other valuable Near the mouth of Coal Creek, where the Company has large quantities of lands salt water has been discovered equal in quality to the Kanawha. This water was pro-cured some 35 years ago by boring, soon after, the On-ondaga salt finding its way down the Wabash and Erie Canal, Mr. Thomas, the proprietor, finding himself un-able to compete with it, abandoned the manufacture. In

his boring he encountered that which recently dis-

closed facts prove to have been coal oil.

Those lands all lie in close proximity to the Wabash and Erie Canal, some of them upon its banks. Mr. John McManomy, the business agent of the company, has returned from a tour of observation of the oi regions of Pennsylvania, convinced that the lands leased by the company, in Fountain and Parke counties, has, o far as the general formation of the country and the surface indications present themselves, a stong analogy in the oil and mineral substances as found on French Creek, Pennsylvania, where the greatest quantity and the most valuable of is found. Mr. McManomy has purchased for the company the most approved machinery with all the fixtures necessary for eperation, and is preparing with experienced workmen the speedy develop-ment of the hidden treasure of the lands of the company All the indices of coal oil, found in localities where i has been procured, are strongly marked in various localities of the lands of the Company, affording every rational prospect of success. The company thinks it annecessary to make any other reference to the character of the lands, other than the report and map referred to. \$100,000 of the stock, being 2,000 shares, is proposed by the Company to be offered in the market at one-half its par value, being \$25 per share, for the purpose of aiding the Company in a speedy development of the apr25-dewtf

Philosophy of Marriage. FEVER PROPRIETORS OF THE NEW YORK MUSEUM of Anatomy have determined, regardless of ex-pense, to issue free, (for the benefit of suffering hu-manity, and suppression of quackery,) four of their most interesting and instructive Lectures on Marriage and its disqualifications. Nervous and Physical Debility, Pre-mature decline of Manhood, Indigestion, Weakness or Depression, Impotency, Loss of Energy and Manly Pow-er, the great Social Evil, and those Maladies which result

from youthful follies, excesses of maturity, or ignorance of Physiclogy and laws of Nature.

These invaluable Lectures have been the means of enlightening and saving thousands, and will be forwarded free, on receipt of four stamps, by addressing Secretary, New York Museum of Anatomy and Medicine, 618 Broadway, New York LIVERY STABLE.

I FENRY ALLES, New York Livery and Salest
